Cedarville mi fishing report

Some good-sized fish were caught off Baraga and in Huron Bay, but those fishing in Huron Bay had to work a little harder to get them. Marquette: The lake trout fishing is starting to increase with most boats catching a few on each trip and some getting limits. Those who were patient caught Chinook, steelhead and lake trout. The evening and morning hours were the best. Alewife has started to enter the river, which should bring the walleye back. Detour: The Atlantic salmon bite declined as fishermen put in long hours to catch some. Anglers fishing at 50 feet or less have caught Chinook, coho, steelhead and lake trout. Little Bay De Noc: Walleye fishermen reported fair catches. The warm colors were orange, chrome and chartreuse. Tomahawk Creek Flood: Fishermen were catching bluegill, pumpkinseed and black crappie. Walleye anglers were having some success at night in deeper water, 15 to 25 feet, with spoons and jigs tipped with minnows. Seymour Creek, which is located one mile west of Detour Village off Hwy M-134, has produced good smallmouth bass by casting from shore. Cedarville and Hessel: There are no reports of yellow perch caught in Cedarville Bay, Government Island, or Duck Bay. Smallmouth bass were caught in plastics in three to five feet near Garth Point and Strawberry Island. Try the wooden area for crap. Experience the 18 inch stream from the bottom in seven to eight feet. Au Gres: Some perch and walleye have been caught in the river and on the south side of the break wall. Perch fishermen had good catch rates near the DayAes Rivers with a crawler or minnow in four to 14 feet. Several fly hatches have occurred creating lines of insects for steelhead. Manistique River: Low participation of fishermen for several reasons. Many think of Walleye as a benthetic spy, or background. You can be surprised how you can get out well.
